**DETAILED ACTION**

***Response to Arguments***

Applicant's arguments, see Remarks, filed August 18, 2006, with respect to the rejections of claims 1-5, 9, 14 and 17 under 35 U.S.C. 102 and claims 6-8, 10-13, 15, 16 and 18-20 under 35 U.S.C. 103 have been fully considered and are persuasive. The rejections have been withdrawn.

***Election/Restrictions***

As an initial matter, Examiner refers applicant to 37 C.F.R. 1.142(a), which states that a restriction requirement may be made at any time before final action.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-17, drawn to a sanitary napkin, classified in class 604, subclass 385.01.
- II. Claims 18-20, drawn to a method for making a sanitary napkin, classified in class 156, subclass 196.

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make another and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the process of invention II can be used to make a materially different product such as a sanitary napkin with only apertures formed thereon.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.
